see the world

www.austincollege.edu
During January Term, Austin College students enroll in only one course—which often takes them around the world!

Each January, 200 to 250 students join faculty for international courses that explore the environment, culture, history, language, science, economics, and more. January 2014 courses include study in South Africa, Indonesia, Germany, Vietnam, Laos, Cambodia, Japan, Chile, Sweden, Austria, the Czech Republic, and France.
