Course Assigned	Course Credits Earned	Term Plan to Enroll	Course Specifications		
			Approved Elective		
TOTAL CREDITS 5					

Refer to the Austin College Bulletin for full degree plan requirements and nuances. This tool should be confirmed with the department or program advisors and mentor.

Important Information

The Education minor is generally for students planning to complete teacher certification and the accompanying Master of Arts in Teaching program at Austin College.

Notes:

1. Additional undergraduate courses are required for each certification field. Detailed advising forms for each certification area are available at <https://www.austincollege.edu/academics/atp/atp-forms-documents/>.
2. Careful advising is important for timely completion of program requirements. Students should meet with the appropriate Education faculty member or the Austin Teacher Program Chair ([ATP Advisors](#)) **before** they declare/are approved for an Education minor. We recommend that students come for advising early in their time at Austin College as it allows them to see how certification requirements crosslist with Austin College curriculum requirements.
