This screen shares a lot of critical information.

Begin Registration will tell you when you can register for the first time. **End registration** will tell you when the online registration will close. Students can enter the online system to register at any time for the term during that timeframe. Once the End Registration occurs, students must use paper add and drop slips from the Registrar's Office to adjust their schedule. The Academic Calendar will share information about the Last Day to Add and Drop classes for a given term. Adjustments to the schedule after those dates, requires a Petition to the Academic Standing Committee.

If students have holds that prevent them from enrolling for classes, it will be displayed under **Registration Holds**. Until those holds are removed, registration cannot occur.

All students must touch based with their faculty mentor in order to register for each term. Mentor approval can be confirmed under **Mentor Approval**.

If you need special permission to enroll in a particular course, you can verify that the professor has granted the permission under **Instructor Approval**.
