Our four-year graduation rates are among the nation's top 10 percent of colleges

“Together we aspire, together we achieve.” The national motto of the Republic of Trinidad and Tobago reflects the diverse cultural history of the archipelagic nation—a nation 15 Austin College students and two faculty members explored first-hand in May 2015. Designated a January Term course, nesting patterns of Leatherback turtles made May a better month for the trip. Students experienced diverse ecosystems of tropical rain forests, coral reefs, sink caves, and lowland swamps, as well as plant and animal life—some seen only through snorkeling, diving, and extreme hiking. The capstone of the course was the opportunity to learn about the biology of sea turtles and observe the nesting behavior of endangered Leatherback Sea Turtles.
