Tips for Searching

Foundation Directory Online Professional

POWER SEARCH

THE POWER SEARCH allows you to search across nine Foundation Center databases—grantmakers, companies, grants, 990s, news, jobs, RFPs, nonprofit literature, and IssueLab reports.

TIPS

* Type in your search terms or select a database to go right to an indexed search.
* Power Search results are sorted by relevance, so exact phrase matches will appear higher up in the results list.
* To search for an exact phrase, simply enclose the phrase in quotation marks (e.g., “arts education”).
* Asterisk (*) is a truncation symbol (e.g., child* to search for child or children).
* To change the relationships between words: Boolean operators should be entered in ALL CAPS.
  AND will narrow your search.
  OR will expand your search.
  NOT will exclude words or phrases.
* To search for words near each other, use “children obesity”~N (where N=number of words separating the two terms in quotes)
GUIDED SEARCH

Use GUIDED SEARCH to see a live recap of your search. Refine your search by adding or removing search criteria without having to start your search over, and search within results to add additional keywords or phrases.

SEARCH GRANTMAKERS

THE GRANTMAKER DATABASE contains approximately 110,000 profiles of private foundations, grantmaking public charities, and corporate giving programs, with 16 searchable fields available. Use this to search for grantmakers based on their giving guidelines and stated areas of interest.

Example: “I am looking for grantmakers that give to children and youth health programs in New York.”

TIPS*

- Two approaches: Start with a narrow search using two or more “Fields of Interest” terms, then broaden your search; OR start with a broader term (e.g., “human services”) then narrow with more or different terms
- Use “Grantmaker Location” to search for local grantmakers. Grantmaker locations can be searched by state, county, city, metro area, congressional district, and zip code. Use “Geographic Focus” to also search for out-of-state grantmakers
- To change the relationships between words: AND will narrow your search, OR will expand your search, NOT will exclude words or phrases
- To learn more about terms used to describe grantmaker fields of interest, explore out Philanthropy Classification System (taxonomy.foundationcenter.org)

*For more search tips, also see the Search Tutorial from the Foundation Directory Online home page or the Foundation Directory Online Guided Tour (fconline.foundationcenter.org/welcome/tour) from our web site.

NOT ALL FUNDER PROFILES HAVE THE SAME LEVEL OF INFORMATION!

The size and content of a grantmaker profile depends largely on the scope and nature of the funding programs and the availability of information on the grantmaker. Profiles may or may not include a purpose and activities statement, fields of interest, geographic focus, and/or the grantmaker’s limitations.

WHAT IS IN EACH TAB?

PROFILE: Grantmaker’s giving interests, application requirements, etc. (see sample profile).

SEARCH GRANTS: Click to search the grants of the grantmaker indexed in the database.

MAP GRANTS: Click to map grants of the grantmaker by recipient type or primary subject on the U.S. or world map. Drill down to see grants by county, city, zip code, or congressional district.

CHART GRANTS: View printable charts of the grantmaker’s giving trends by recipient type or primary subject.

NEWS/RFPS/JOBS: Grantmaker-related headlines, requests for proposals, and job opportunities that have been posted on our website’s Philanthropy News Digest (foundationcenter.org/pnd/).

PUBLICATIONS: Grantmaker-sponsored reports from IssueLab (issuelab.org). You also can link to a list of books and articles on the grantmaker from the Catalog of Nonprofit Literature, the Center’s library catalog (cnl.foundationcenter.org).

PEOPLE: Names, titles & affiliations of Officers, Trustees, Donors, and key staff.

990s: Links to the grantmaker’s recent Forms 990/990-PF.
SEARCH COMPANIES

THE COMPANY DATABASE contains over 4,000 profiles of companies that sponsor corporate giving programs, foundations, and grantmaking public charities, with 15 searchable fields available. Use this to search for sponsoring companies based on their location, their business activities, and the locations of their subsidiaries.

Example: “I am looking for companies located in New York that manufacture sporting goods.”

TIPS*

• If you’re looking for in-kind gifts, use the Business Type (NAICS) search field to find sponsoring companies that manufacture or produce certain products

• Use the Officers/Directors search field to identify companies affiliated with your organization’s donors, board members, or volunteers

• Since many companies support communities where they operate, use the Subsidiary State/Country and Subsidiary City search fields to find companies in your geographic area

*For more search tips, also see the Foundation Directory Online Guided Tour (fconline.foundationcenter.org/welcome/tour) from our web site.
NOT ALL COMPANY PROFILES HAVE THE SAME LEVEL OF INFORMATION!

The size and content of a company profile depends largely on the type of company and the availability of information. Profiles may or may not include the company's name and address; the company's URL; establishment information; company type; the company's ticker symbol and exchange; business activities; financial data; directors and corporate officers; names and/or locations of subsidiaries, divisions, joint ventures, plants, and offices; countries of international operations, and historic merger information.
SEARCH GRANTS

THE GRANTS DATABASE IN PROFESSIONAL contains over 3 million records of recently awarded grants by the largest grantmakers, with 15 searchable fields available. Each record links to the grantmaker’s profile and, when possible, to the recipient’s web site. Use this database to find organizations or projects similar to yours that have received grants, review grants made by a specific foundation, or get ideas for search terms that describe your program. (Search Grants is not available in Foundation Directory Online Basic.)

Example: “I am looking for examples of funded projects in California that address childhood obesity.”

Content of a grant record varies based on availability of information from a grantmaker’s IRS information returns, annual reports, and grant lists.

Click to see the index for this search field.

Number in parentheses shows how many grant records are in the database for that term.

Asterisk (*) is a truncation symbol that can be used in place of one or more characters.
SEARCH 990

Search 990s contains recent IRS Forms 990/990-PF for all foundations and grantmaking public charities in *Foundation Directory Online* (over 1 million documents). Use this database to search for grants to organizations and projects similar to yours.

- “Keyword Search” scans IRS filings for search terms. Other search fields (Fiscal Year, Grantmaker Name, etc.) scan *Foundation Directory Online* entries.
- To search for words near each other, use “children obesity”--N (where N=number of words separating the two terms in quotes)
- Only search terms from “Keyword Search” box will be highlighted in the Form 990/990-PF. Search terms typed into other fields (Fiscal Year, Grantmaker Name, etc.) will not be highlighted.
- Click on “View the Grantmaker Profile” to go to funder’s profile.

**Using AND vs. Proximity searching:** When using AND to search for 2+ words, the search engine will return any Forms 990 that have those words, even if the words are pages apart. When using “word 1 word 2”~30 to search for 2+ words, there is a greater chance that the two words will be within 30 words of each other, e.g., a program description for a recently awarded grant.

**A Note About Highlighting:** The technology used to scan the text in the Search 990s documents – optical character recognition or OCR – looks for matches to words you type into the “Keyword Search” field, highlighting them when it finds one. This technology is not a perfect science, and there may be instances where you find highlighting to be slightly off its mark, or you may find a different word highlighted because the search was not able to differentiate it from the term on which you were searching. In addition, any truncated search terms will not be highlighted. For example, searching on “obes*” will give you “obese” or “obesity,” but the terms will not be highlighted in the resulting documents.

The Foundation Center’s Types of Support Authority List

**Advocacy**: Cash grants for services related to advocacy, including advocating for better assistance in various program areas (for example school reform, full access to health care, legal reform, environmental clean up work, etc.) and providing assistance in planning advocacy campaigns.

**Annual campaigns**: Any organized effort by a nonprofit to secure gifts on an annual basis; also called annual appeals.

**Awards/prizes/competitions**: Grants for artists’ awards, prizes, competitions, housing, living space, and work space.

**Building/renovation**: Grants for constructing, renovating, remodeling, or rehabilitating property. Includes general or unspecified capital support awards.

**Business startups/expansion**: An area of activity supported by the investments of foundations or funders, the purpose of which is to stimulate the business sector.

**Capital campaigns**: Campaigns to raise funds for a variety of long-term purposes such as building construction or acquisition, endowments, land acquisition, etc.

**Cause-related marketing**: The practice of linking gifts to charity with marketing promotions. This may involve donating products that will then be auctioned or given away in a drawing with the proceeds benefiting a charity. The advertising campaign for the product will be combined with the promotion for the charity. In other cases it may be advertised that when a customer buys the product a certain amount of the proceeds will be donated to charity.

**Charitable use real estate**: Program-related investments in properties that are used for charitable purposes. In most cases, a property such as a building is held by a foundation, which in turn donates or leases it at below market rates to a nonprofit organization. In other cases, a property consists of either land or buildings that are held for a period of time by a foundation and then either given away as a grant or sold to a nonprofit or to a government agency.

**Collections acquisition**: Grants to libraries or museums to acquire permanent materials as part of a collection, usually books or art.

**Collections management/preservation**: Grants for maintenance, preservation, and conservation of materials.

**Commissioning new works**: Grants to support the creation of new artistic works.

**Computer systems/equipment**: Grants to purchase or develop automated systems.

**Conferences/seminars**: Includes workshops.

**Consulting services**: Professional staff support provided by the foundation to a nonprofit to consult on a project of mutual interest or to evaluate services (not a cash grant).

**Continuing support**: Grant renewed on a regular basis.

**Curriculum development**: Awards to schools, colleges, universities, and educational support organizations to develop general or discipline-specific curricula.

**Debt reduction**: Grant to reduce the recipient organization’s indebtedness; also referred to as deficit financing. Frequently refers to mortgage payments.

**Donated equipment**: Surplus furniture, office machines, paper, appliances, laboratory apparatus, or other items that may be given to charities, schools, or hospitals.

**Donated land**: Land or developed property. Institutions of higher education often receive gifts of real estate; land has also been given to community groups for housing development or for parks or recreational facilities.

**Donated products**: Companies sometimes give away what they make or produce. Product donations may include periodic clothing donations to a shelter for the homeless or regular donations of pharmaceuticals to a health clinic resulting in a reliable supply.

**Electronic media/online services**: Grants for support of projects on the Internet and World Wide Web, including online publications and databases, development of Web sites, electronic networking and messaging services, CD-ROM products, and interactive educational programs.

**Emergency funds**: One-time grants to cover the immediate short-term funding needs of a recipient organization on an emergency basis.

**Employee matching gifts**: Usually made by corporate foundations to match gifts made by corporate employees.

**Employee volunteer services**: Effort through which a company promotes involvement with nonprofits on the part of employees.

**Employee-related scholarships**: Scholarship programs funded by a company-sponsored foundation usually for children of employees; programs are frequently administered by the National Merit Scholarship Corporation which is responsible for selection of scholars.

**Endowments**: Bequests or gifts intended to be kept permanently and invested to provide income for continued support of an organization.

**Equipment**: Grants to purchase equipment, furnishings, or other materials.
