Lake Campus Fire Pit Resolution

Sponsor: Eric Summerlin, Chair of Elections

- Observing** that students use the fire pits as a means of relaxing and staying warm around Lake Campus, currently there no pits at lake campus,
- Understanding** students are prone to produce their own fire pits, if none are present,
- Noting** this would decrease the chance of fire hazards and increase the happiness of Lake Campus users,
- Be it resolved** that Student Assembly approves the purchase of six fire pits from Physical Plant for \$700. The pits will be installed at no installation cost at the Lake Campus in order to provide safety for all students and reduce fire hazards.
- Note:** The new pits will go in the same location as the previous pits.
- Note:** The pits will be made out of 30” steel pipe cut in 18” lengths that is what is referred to as schedule 40 pipe. This is a heavy grade steel pipe that will handle fire temperatures and outdoor exposure much better than the previous manufactured versions.
