### Skateboard Rack Resolution

Sponsor: Eric Summerlin, Chair of Elections

Co-Sponsor: Elliot Nirider, Representative

- Observing** that students use various boards (penny boards, long boards, razor scooter, etc.) as a means of transportation around campus but have no method of storage for them within major campus locations (WCC, IDEA Center, Admin Building),
- Understanding** skateboards are prone to rolling or falling over when leaned against a wall they cannot be considered safely stored, the instalment of a storage rack would be prevent common accidents,
- Noting** this would decrease the misplacement and or theft of boards on campus, which have been reported by multiple students,
- Being that** Austin College does not condone thievery of any level and holds the safety of all its students and staff in the highest priority,
- Be it resolved** that Student Assembly approves the purchase of one skateboard rack (either the Belson Wall Mounted Rack, or a Wall Mounted Longboard Rack) with the capacity for either four, or six at a time to be installed in the Wright Campus Center cafeteria in order to provide safety for all students and prevent theft.
- Note:** The medium end would be also be semi-permanent, leaving behind holes in the wall if ever removed. Cost of one rack (holds 4) is \$209(Galvanized) and \$249(powder coated) before shipping.
- Note:** The low end option would be also be semi-permanent, leaving behind holes in the wall if ever removed. Cost of one rack (holds 5) with shipping is \$56.51. Installation costs not included.
- Note:** Link to items being purchased:
