

Mentoring is a two-way street

Your mentor can expect you to ...		You can expect your mentor to ...
Come to meetings prepared to discuss your curricular/co-curricular goals/plans		Listen to and clarify your goals and plans
Familiarize yourself with college policies, requirements, procedures, resources		Provide information to help you identify opportunities and navigate college
Develop and continually refine your plan and discuss this plan with others		Help you refine your education plan to reflect your new experiences and goals
Reflect on connections among your curricular and co-curricular experiences		Assist you in finding ways to integrate your experiences in meaningful ways
Maintain contact with and respond to communication from your mentor		Be accessible for meeting with you and responsive to communication from you
Take responsibility for your decisions		Help you make decisions but not make decisions for you
