Button Machine for Campus Organizations Resolution

Sponsors: Laurel Hagge, Vice President, Nicole Pinkerton, Dean Hall Representative, Odalys Sarabia, Caruth Representative, & Nick Frederick, Public Relations Chair

- Observing** That there is not a button maker on campus for organizational use.
- Convinced** that after hearing requests from the Austin College Chemical Society and the Austin College Student Democrats that multiple organizations will use the button maker.
- Having Seen** That there is not another machine to make professional looking merchandise for organizations on campus.
- Be it resolved** that the Student Assembly approved the purchase of (1) \$474.95 button maker and initial button making components for the use of the student assembly. The assembly also approves the purchase of a cable lock for \$7.95, bringing the total cost of the purchase to \$482.90.
- <https://www.americanbuttonmachines.com/collections/popular-button-maker-sizes/products/2-25-button-maker-kit?variant=117373796376>
- Noting** That the button maker will be housed in the student organization workroom within the Adams Center. It would be locked into place next to the die cut machine. The pinbacks, plastic covers, and shell for each individual button would need to be purchased by each organization from the stock that the Student Assembly would have of 1,000 buttons. More buttons could be restocked when needed.
