Lighting on Campus Opinion

Sponsors: Caitlin Perry, Caruth Hall Representative,
Matt Li, Sophomore Representative

- Observing** that the lighting on campus is not sufficient for students to comfortably walk across campus at night by Dean Hall, the IDEA Center, and between the Ida Green Communications Center and the Johnson ‘Roo Suites and Flats Apartments,
- Noting** the high volume of students that walk across campus at night,
- Convinced** that new, brighter lighting outside of Dean Hall and Ida Green Theater will make students more comfortable walking around campus at night,
- Be it resolved** that the Student Assembly recommends that Austin College, in conjunction with Physical Plant and the Austin College Police Department:
- Replace the lightbulbs around Dean Hall and the IDEA Center
 - Add lighting in between Ida Green and the ‘Roo Suites and Flats
 - Keep lighting updated with the highest quality bulbs in our possession
- The map below indicates the areas in need of improvement:
