D Locks Resolution

Sponsor: Jeffrey Berk

- Having examined** The recent increase in the number of bicycles being stolen despite the application of bicycle locks.
- Cognizant** ACPD recommends the use of special D shaped locks that are much harder to cut through. ACPD is willing to distribute and track all D locks amongst students free of charge granting the student returns it after it used.
- Hoping** To prevent future theft of student's bicycles and other property on campus.
- Be it Resolved** Student Assembly provide the necessary funds to purchases 10 D shaped locks for a total cost of \$165 (this does not include a shipping cost). Additionally, Student Assembly will turn the locks over to ACPD, who will be responsible for storing, distributing, tracking, and replacing them out to students.
- Noting:** Students will need to fill out a form with their name, student ID, and student email, and sign the form stating they are responsible for any damage to the lock while it is in their care. Additionally, this form will specify that if damage to, loss of, or failure to return the lock at the end of the semester will result in the monetary amount of the lock being charged to the student's account in order to replace the lock.
- Permission granted:** ACPD police chief, secretary, and officers, confirmed support and acceptance of responsibility for "managing" D locks.
