

# The Sherman Museum

By: Paola Paulin

# About the Museum:

- The Sherman Museum collects and exhibits objects with long-lasting historic significance that are connected to the Grayson County region.
- The museum building was once the Sherman Public Library.
- In 1976, the museum was established.

# Dino Days:

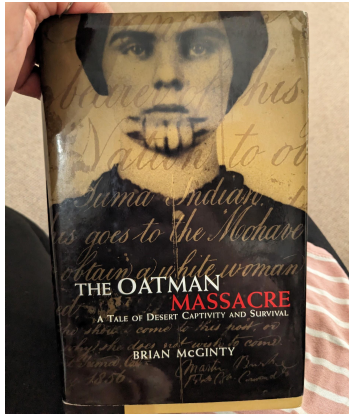

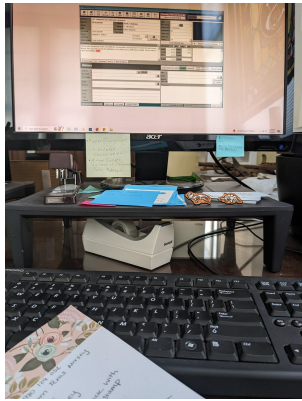

- Throughout the summer, the museum sets up an exhibit attracting students and teaching them about dinosaurs along with meteorites.
- The exhibit features both dinosaur models and real fossils.
- I assisted with the setup and service to customers.

# Dino Academy and Night at the Museum:

- Dino Academy educates children about dinosaurs along with meteorites through a tour and informative activities.
- It is an evening event that includes a flashlight tour, glow-in-the-dark games, and paleontology-themed treat.
- I assisted with the set up, arts & crafts, and cleaning up.

## Research:

- I was able to conduct research on Olive Oatman for a new display.
- Participated in the search for items in the past perfect museum software for the next fall exhibit.

## Church Building:

- I was able to help with the process of storing pieces from past exhibits.

# My Personal Experiences:

- This internship provided me with actual work experience while also allowing me to further my professional growth.
- Allowed me to take a closer look and learn what it's like working in a museum.
- It gave me the chance to learn more about the history of my hometown.

# Thank You!

I am grateful for being given this opportunity and would like to express my appreciation to the Sherman Museum's director, Stuart Holcombe, the curator, Jacob Lee, and Nathan Overby.
